

## FOREST HOMECARE

We have been working alongside Essex County Council to support their Be the Reason campaign which is to raise awareness on the diverse roles within the care sector.

To support this we exhibited at the Gift of Care job fair based in the Chelmsford Civic Centre to encourage recruitment in the care sector in our local areas.

We had a lovely day meeting a variety of different people all looking for roles within the care sector, it was a great success!

For more information about this campaign please see the link below:
