

In 2018 Forest Homecare made its first steps to becoming a Dementia Friendly Organisation with all staff attending A Dementia Friends Session,

Dementia Friends is an initiative led by the Alzheimer's Society which aims to increase dementia awareness and turn that understanding into action.

This is part of the Prime Minister's Challenge on dementia.

There are now over one million Dementia Friends across England and Wales and the numbers are growing.

Forest Homecare has a team of Dementia Friends Champions who can deliver sessions and we welcome anyone to attend one of our sessions.
