

## FOREST HOMECARE

We have worked closely with Chelmsford College and their students providing tutorials talks on working as a domiciliary carer to attending their Progression Fairs.

Every year Chelmsford College holds its own progression fair where employers, universities and gap year organisations all come together to offer as many pathways as possible for their students.

Last year we had great success exhibiting at their Progression Fair, so we have decided to join them again this year on the Thursday 17<sup>th</sup> May 09.30am- 3.30pm at the Moulsham Street campus.

We will be exhibiting here where we will be giving career advice to those students who are interested in the social care industry.

Therefore if you are a student at Chelmsford College or know of one please advise them to visit our stand for further information or visit the below link for more information regarding this event.
